

# Transportation Carbon Emissions Report

Reporting Period: 12/17/2024, 10:18:59 PM      Sector: Transportation

Activities: Vehicle Usage, Fuel Consumption      Geography: Global

## Project Components

Components	Input(kg)	Rate (tCO2e/Kg)	Total Emission
Vehicle Usage	300	0.5	150.00
Fuel Consumption	500	0.25	125.00

## Project Milestone

Project Milestone	Status	Completion Date	Yes/No
Emission Data Collection	Completed	12/17/2024	Yes
Emission Analysis	Completed	12/17/2024	Yes

## Summary

The total emissions calculated for the transportation sector are 275.00 tCO2e. This includes 150.00 tCO2e from vehicle usage and 125.00 tCO2e from fuel consumption.
